Investors cheer China's \$586-B stimulus plan

Investors cheer China's \$586-billion stimulus plan, which is expected to be approved by the National People's Congress (NPC) on Tuesday. The plan is seen as a major boost for the Chinese economy, which has been hit hard by the global financial crisis. Analysts expect the plan to include measures to increase government spending, cut taxes, and provide financial support to businesses and households.

Obama's vocal image

POLITICAL
TRENDS

Barack Obama's vocal image is a powerful asset. He has a way of speaking that is both calm and confident, and he has a way of listening that is both attentive and empathetic. This is a rare combination in a politician, and it is one that has helped him to connect with the American people in a way that no other politician has in recent memory. Obama's vocal image is a testament to his leadership and his ability to inspire others. It is a quality that is essential for any leader, and it is one that Obama has mastered.

How big-city planning works in Mexico

IN LEXUS

Big-city planning in Mexico is a complex and often controversial process. It involves a wide range of stakeholders, from government officials to community leaders, and it often takes years to complete. The process is often fraught with challenges, including corruption, lack of transparency, and conflicting interests. Despite these challenges, big-city planning in Mexico is essential for the country's future. It is a process that is necessary to ensure that the country's cities are able to grow and develop in a sustainable and equitable way.

A bow named Barry

CONTEMPORARY

by

A bow named Barry is a story of a man who is searching for his identity. He is a man who is lost, who is unsure of who he is and where he belongs. He is a man who is looking for a way to find himself, and he is looking for a way to find his place in the world. Barry is a man who is brave, who is willing to take risks, and who is willing to face his fears. He is a man who is determined to find himself, and he is determined to find his place in the world.

THEY SAY

by David Shields

They say that the world is a cruel and无情 place, and that life is a constant struggle. They say that the only way to survive is to be ruthless and to do whatever it takes. They say that the only way to succeed is to be a winner, and that the only way to win is to be the best. They say that the only way to live is to live on the edge, and that the only way to live on the edge is to be a risk-taker.

Figure 1 displays a sequence of nine grayscale images arranged in a 3x3 grid, illustrating the degradation of a handwritten digit '4' as noise is introduced. The images are labeled from top-left to bottom-right: 'Original', '0.1', '0.2', '0.3', '0.4', '0.5', '0.6', '0.7', and '0.8'. The 'Original' image shows a clear, sharp digit '4' on a black background. As the noise level increases from 0.1 to 0.8, the digit becomes progressively more obscured by a noisy, speckled background, making it increasingly difficult to recognize.

3 men shot dead in UP campus heist

Armored van target of armed robbers

By John C. Ramirez

A robbery of an armored van carrying cash and valuables at the University of the Philippines (UP) campus in Diliman, Quezon City, on Wednesday night resulted in the deaths of three men.

The robbery took place at about 10:30 p.m. when a group of armed men stopped the van on a road leading to the UP campus. The robbers demanded the driver to open the back of the van and take out the cash.

The driver complied with the demands and the robbers fled with the cash. The driver and two other men who were in the van were shot dead by the robbers. The police are currently searching for the robbers.

The diagram illustrates a 2D hexagonal lattice structure. A central atom is labeled '1'. It is surrounded by six atoms in a hexagonal arrangement, labeled '2' through '7'. The distance between the central atom and its nearest neighbors is labeled 'a'. The distance between two adjacent atoms in the second shell is labeled 'b'. The lattice is shown in a perspective view, with a horizontal plane and a vertical axis.

 CONSTRUCTION OF MATERIALS

Figure 1 is a schematic diagram of the experimental setup. It shows a subject sitting at a table, viewing a video screen. A camera is positioned above the screen. A light source is positioned to the left of the screen. A scale bar is shown below the screen. The diagram is labeled with 'Subject', 'Video Screen', 'Camera', 'Light Source', and 'Scale Bar'.

A breakup that everyone saw coming

EVERYONE SAW THE coming, heart-breaking split as early as a month ago, but now it's official: **DEAR WOOD** and **JOHN MALKOVICH** have broken up.

DEBRA WINGER
and **JOHN MALKOVICH**

It seems hard to believe, but the couple has been together for nearly 20 years. They met on the set of *Runaway Train* in 1985, and their relationship has been a source of inspiration for many. However, their split was not unexpected. In fact, it was widely reported that they were having a rough time in the kitchen.
